

## Weber Packaging Solutions, Inc. reports initial savings in make-ready waste approaching 50% after DRC 6000L installation.

*Arlington Heights, IL; Weber Packaging Solutions, Inc. installs **CC1 DRC 6000L Automatic Register Control** on 10 color MARK ANDY 4150 press.*

### Mark to Mark Register Control

CC1, Inc. of Portsmouth, New Hampshire announces that Weber Packaging Solutions, Inc. of Arlington Heights, IL recently installed the DRC 6000L Automatic Register Control on a ten color MARK ANDY 4150 press. The project included two CC1 Register Control “Smart Cameras” and the DRC 6000L touch screen user interface.

### Early ROI

John O’Leary, Vice President of Manufacturing at Weber Packaging comments “I was impressed with the ease of installation and the way the entire CC1 team provided us with training and support which were very thorough and professionally executed.”

Our customers demand the highest in register quality and the DRC 6000L helps ensure we meet those demands, while controlling costs at the same time. Our initial savings in make-ready waste is already approaching 50%, showing the DRC-6000L to have a very justifiable return on our investment.”

## DRC 6000-L

### Consistent Quality, Reduced Waste

“We are pleased with the results at Weber Packaging Solutions, Inc.” indicates Bob Baillargeon, Sales Manager at CC1. “The entire process at this site has been one of mutual cooperation and we look forward to our continued partnership.”

The DRC 6000L is the latest development in register control technology from CC1, Inc. and incorporates the CC1 designed “Smart Cameras” and unique register control mark pattern that easily fits with the track of a 1/8” barer bar.

Contact us today and learn how the DRC-6000L can help reduce your print waste and improve color registration quality!
